## **DETAILED ACTION**

### **Allowance**

Claims 1-3 and 7-8 are allowed.

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, singularly or in combination, at least the limitations of said solid stage battery is "carried on the second diffusion layer, and said first diffusion layer surrounds said region where said solid state battery is mounted", as recited by claim 1. The above limitation is not addressed by Bates in view of Rezvani because if the solid state battery device of Bates is modified so that it is carried on the second diffusion layer (130) of Rezvani, it would not be in the quiet region (110) or the noisy region (120), and hence the isolation described by Rezvani would not be achieved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
